

# THISQUIETARMY

## TECHNICAL RIDER

- Number of band members: 1 (Eric)
- Instrument & gear: guitar + effect pedals + samplers + loop recorders to: on-stage mixer.
- Type of music: experimental ambient soundscapes & wall of sound with elements of post-rock, shoegaze & doom/black metal.
- Set time: 40 mins - flexibility from 30 to 60+ mins but must be notified ahead of time – visual settings may change.
- Sound requirements:
  - 2x DI or 1x stereo DI (stereo output from onstage mixer)
  - 2x jack cables from mixer to DI (no XLR outputs, only 1/4")
  - 2x stage monitors (stereo)
  - Optiona: 1x bass amp 8x10" required if PA does not have subwoofer, if no monitors are available or if they cannot handle bass frequencies.
- Mixing requirements:
  - the signals from the 2x DI should be hard panned (stereo)
  - optional: the signal from the bass amp should complement the 2x DI signals for low-end
  - the mix through the PA and monitors should be LOUD.
  - sonic atmosphere: the sound should fill up the room and be very PRESENT and IMMERSIVE.

- Visual projection & light requirements:
  - Visual projector with large white screen required.
  - HDMI (preferred) or VGA cable from projector to the stage – if not, a laptop should be available to handle an MP4 file via USB key.
  - Intimate setting: one spot light on the performer and the performer’s pedal board, the rest of the spots should be turned off.
  - Extroverted setting: light guy may use some white lights tastefully.
  - Black/white visuals should provide enough light and will enhance the atmosphere.
  - Smoke machine if available
  - Candles if available
  
- Stage set-up:

THISQUIETARMY : STAGE SET UP

# HOSPITALITY RIDER

- Sleeping arrangements
  - Single or double bed for 1 person
